

SUBJECT INDEX

Advance directives 24, 31
applied clinical ethics 14, 15, 16, 19
ATLAS.ti 127
audio-recordings 45, 47, 125
automated data retrieval 133

Bias 54, 75, 154, 186, 191

Categories 47, 48
clarity of wording 168
clinical ethics 14
clinical ethics consultation 32
closed-ended survey 41
clustering effects 196
codebook 49, 51
code development 59
code reports 55, 56, 57
codes 48, 53, 127
coding agreement 54
coding drift 131
coding manual 128
coding reliability 51, 54
coding scheme 49
cognitive interviewing 166
community-based research 187
community decision-making 184
community involvement 68, 73
computer assisted telephone
interviewing 154
conceptual map 53
confidentiality 42, 68, 156
conflict of interest 29
consensus coding 131
consensus process 55

CONSORT 206
constant-variable vignette
method 163
construct validity 122, 152
content validity 51, 152, 170
control groups 205, 206
convenience samples 146
cost of surveys 150

Data immersion 47
data preparation chart 126
debriefing notes 73
decision-making capacity 27, 31
decisional capacity 31
deductive codes 48, 49
descriptive studies 205
diffusion of intervention 207
digitally recording interviews 125
distributive justice 193
doctrine of informed consent 22, 27

Ethical theories 13, 14, 15, 16, 19, 23
ethics consultants 13, 14, 16, 17,
18, 19
ethics consultations 16, 17, 18
experimental designs 205
exploratory research 118
external validity 176, 203, 207
extraneous variables 207

Face validity 152
factorial design 174
financial incentives 150, 151
focus group questions 67

- focused theory-testing 118
- follow-up surveys 191
- forced-choice responses 149
- forgoing treatment 24
- formative data 65
- factorial designs 175

- Generalizability 79, 211
- goals of care 19
- grounded theory 41

- Health care disparities 25
- health care priorities 184, 193
- HIPAA Privacy Rule 191
- human subjects research 186
- hypothesis-testing 175

- Inductive codes 48
- inductive reasoning 50
- informed consent 31, 68, 125, 198, 213, 214, 215
- Institute of Medicine 25, 30
- instrumentation 207
- inter-coder reliability 129
- internal consistency 169, 171
- intervention studies 204
- interview guide 46, 119
- intra-rater reliability 171
- IRBs 28, 29, 30

- Justice 15, 193

- Karen Ann Quinlan 24
- key informant interviews 151

- Labeling 44
- legitimacy 184, 186, 188
- life-sustaining interventions 24
- Likert scale, 173
- literacy levels 145

- Memoing 47
- memos 56, 60

- multi-level consensus coding (MLCC) 129

- Nancy Cruzan 24
- National Bioethics Advisory Commission 30
- node type 51
- nominal group technique 188
- non-probability sampling 145
- non-random sampling 197
- non-response bias 154

- Online coding 132
- open-ended interviews 41
- open-ended queries 118, 168
- ordering of survey items 150

- Pilot testing 120, 122
- positivist view 54
- pragmatic ethics 15
- pre-/post-test designs 205
- preliminary coding 49
- pretest 167
- privacy of information 69
- procedural justice 193
- protecting human subjects 28, 30
- provisional coding manual 128
- proxy directives, 25, 31
- public opinion 198
- public opinion polls 185
- purposeful sampling 43, 146

- Qualitative content analysis 40
- qualitative data analysis 132
- quantitative content analysis 39
- quasi-experimental designs 205, 212, 213
- question order 156
- quota samples 146

- Randomization 186, 190, 205, 206, 213
- rates of non-response 147
- recall bias 154

- recruitment of subjects 123, 186
- reliability 152, 169, 171
- representative 185, 186, 194
- research questions 18, 43, 57, 151
- respondent burden 154
- response frames 149
- response rates 151
- response summaries 75
- response-wave bias 155
- right to die 24
- round robin method 188

- Sampling 43, 66, 123, 124, 145, 146, 150, 173, 186, 190, 194, 199
- selection bias 207
- self-administered surveys 149
- semi-structured interviews 40, 117
- simple random sample 145
- simulation exercise 193, 194
- snowball sampling 123, 146
- social justice 25, 31
- socially desirable response bias, 154, 156
- stratified random sampling 67, 145
- sub-codes 128

- substantive representation 186
- SUPPORT study 24
- survey development 145
- survey fielding 153
- survey question wording 186
- survey responses 189

- Team coding 51
- test-retest reliability 171
- textual data 39
- thematic coding 128
- themes 47, 48, 128
- theoretical saturation 124
- therapeutic misconception 22
- town hall meetings 185
- transcription 45, 47, 120, 126

- Units of analysis 43, 196
- univariate (single item) distributions 156

- Validity 54, 122, 152, 169
- value conflicts 14
- vulnerable populations 28, 30
