

# INDEX

- Academic environment of sc'MOI network, 70–71
- Academy of Management (AoM), 73–75, 78, 82, 83, 86
- Access to Knowledge movement (A2K movement), 68–70, 74–75
- Accounting, contribution to improving, 59–61
- Actants, 217–218
- Action, 81, 136–137, 145–147
- Active unit theory, 51
- Activity
- contract, 55
  - synchronization, 42–43
- Activity piloting intensity (API), 42–43
- Actor-network theory (ANT), 216, 217, 218, 220–221
- Actors, 37
- synchronization, 42–43
- Actual domain, 95, 96, 97
- Actual pattern, 93, 95
- Actualization, 147
- Affordance, 188
- Agency, 219
- Agential Realism, 113–114, 208
- post-humanist, 156
- Agnosticism, 217
- Agriculture humanity, 143
- Amendments acknowledge, 113
- American management practice and organizational forms, 199
- American MOI, 198, 200
- Ante-narrating futures, 171
- Antenarrative generative mechanisms (AGMs), 93
- Antenarratives, 20–21, 24, 29, 31, 133, 155, 169–177
- creation, 132, 133–134
  - critical reflexive space, 174
  - processes, 2
- Anthropocentrism, counter-memories of, 203
- “Anti-foundational” claims, 217–218
- Anti-structural approach, 209, 212–213, 215
- Anticipation, 140, 165
- Antidialogical societal narrative, 29
- Aporia*, 193
- Aquaponics, 258
- Archimedean spiral, 255
- Archimedean two-dimensional spiral theory, 254–255
- Asymmetrical spiral vortices, 255
- AT&T Cloud Architect, 241
- Autism, 26, 27
- antenarrative, 20–21, 24, 29
  - entrepreneurial storytelling, 32
  - grand narrative of disability, 30–31
  - infrastructure, 21–22
  - organizational stories, 28–29
  - process, 22, 23
  - seven Ss, 31–32
  - society, 26
  - spirit, 25
  - storytelling, 19–20
- Autobiographical self-reflection, 70–71
- Awareness, 188, 191, 193, 194
- communication and, 184–185
  - explicit, 161, 171
  - situational, 120

- Bakhtin's answerability, 200  
 Barad's quantum philosophy, 156  
 Becoming dimension, 165  
 Bedrock theory, 60  
 Behavior, 44
  - complex adaptive, 109–110
  - dynamic system, 122
  - organizational, 39
  - proactive, 54
  - professional, 54
 Behaviorism, 82  
 Being, 136, 137–138, 147–148
  - entrepreneurial, 132*Being and Nothingness* (Sartre), 192–193  
 Beneath dimension, 164  
 Benevolence, 36  
 Bet and Before dimensions, 162  
 Between dimension, 163–164  
 Boomerang effect, 49, 268, 269  
 Breathing, 230, 234, 235  
 Burrell and Morgan model, 209–210, 213, 216  
 Business school accrediting agencies, 84  
 Business-as-Usual Tourbillion Spiral, 257  
  
 Capital, 37–38  
 Capitalism, 90, 91–92, 204
  - capitalistic activities, 90
  - spiral-helix in evolution of, 93–95
 Carboniferous Capitalism, 253–254, 257–258, 260  
 Causality, 268  
 Cause-and-effect relationships, 93  
 Centrifugal forces, 255  
 Centripetal force, 255  
 Change energy resources, 55  
 China
  - plastic recycling in, 4
  - in producing goods and services, 269
 Classical organization theory, 58  
 Climate change, 61, 253–255, 257  
 Co-constituting process, 187  
  
 Co-creative sociomaterial processes, 121–122  
 Co-evolving process, 187  
 Cobb–Douglas production function, 39–40  
 Cognitive approach, 113  
 Collective storytelling, narratives of, 75–76  
 Collective work environment, 43–44  
 Commitment theories, 43  
 Communication, 184–185  
 Communication–coordination–cooperation (3Cs), 97  
 Complex adaptive behaviors (CAS), 109–110  
 Complex relational causality, 187–188  
 Complexity, 104
  - theory, 109
 Conflict/cooperation dialectics in organization, 52  
 Connectionism, 187  
 Connections, 241–244  
 Constraint bound adaptive causality, 187–188  
 Containment
  - fictionalized memo recommending strategy, 237–241
  - as strategy, 236–237
 Control-directed perspective, 183–184  
 Copernican Revolutions, 188–189  
 Corporatocentrism, 201
  - counter-memories of, 203
 Cost-cutting ideology, 267  
 Costs, 45–46  
 Counter-memory, 201–202
  - of corporatocentrism and anthropocentrism, 203
 Craft revivals and inventive periods, 200  
 Creation of potential time/directly productive time ratio (CPT/DPT ratio), 49–50  
 Critical management, 204
  - studies, 73–75
  - theorists, 81

- Critical quantum perspective, 204
- Critical realism, 208
- Critical reflexive space of anti-narrative, 170–177
- Critical revival for MOI, 199–201
- Critical storytelling conference
  - debate and differences of opinion, 16, 17
  - embodied conference, 12–13
  - highlights in conference, 17–18
  - incidents in early years conference, 13–15
  - personal accounts, 15
  - traditions in, 15–16
- Critical theory, 67
- Critical-theory-based qualitative self-reflexivity, 12
- Criticality, 134–136, 144–145
- Cultural product, 157–158
- Cybernetics (*see also* Systems)
  - doubleness, 188–189
  - organizational studies, 191–194
  - to social complexity theory, 183–186
- Cyclical dysfunctions resurgence, 41, 50–51
  
- Daily and proximity democracy, 36
- Data collection techniques, 56–57
- De-extinction spiral, 253–254
- Decision-making models,
  - contribution to improving, 59–61
- Deconstructionist, 216
- Democracy for realists, 73–75
- Demographic structures of organization, 45
- Dialectical/dialectics, 80, 81, 85, 155, 166
  - conceptual framework, 169
  - conflict–cooperation mix process, 39–40
  - interaction, 245
  - process, 168
- Diffraction/diffraction, 114, 166, 167, 169
  - dialectical organizational storytelling, 166–170
  - dialectics, 156, 166
  - fore-structured narrative conceptions, 156
- Disciplinary matrices, 209, 213–214
- “Discovery” phase of action research cycle, 121
- Distinction, 139
- Documented records, 70–71
- “Dominant narratives” of power, 2
- “Double Dutch bucket” aquaponics system, 258
- Double greenhouse Earthship, 258, 259
- Double-spiral-helix (DSH), 93–94, 255
  - centripetal-centrifugal, 255
  - SEAM model, 96
- Double-twisted spiral, 255, 256
- Dynamic system behaviors, 122
- Dysfunctions, 41, 44–45, 50
  - regulation, 46–47
  
- Earthday Fact Sheet (2019), 5–6
- Eco-apartheid, 201
- Economic ideology, 199
- Economic value, 37
  - criticism and transcendence of value of work, 40
  - socioeconomic theory of value creation, 40–41
- Ecosystem stability, 254
- Education, 27–28
- Electronic-waste (e-waste), 4
- Elitism, 58
- Embodied conference, 12–13
- Embodiment, 231
- Emergent complexity at interface of two conferences, 108–111
- Endogenous growth theory, 39
- “Enfolding or unfolding”, 125
- Ensemble leadership, 13
- Enterprise socioeconomic approach, 55

- Entrepreneur(ship), 90, 100–101, 132  
     international, 132  
 Entrepreneurial  
     being, 132  
     storytelling, 32, 132  
 Epistemological intra-play, 170  
 Epistemologically relationist, 216  
 Epistemology, 79, 216, 218  
*Esprit*, 80  
 Ethic of value creation, 101  
 Ethico-onto-epistem-ology, 165  
 “Exemplar” matrix, 213–214  
 Explicit knowledge, 93  
 Externalized costs/internalized costs  
     ratio (EC/IC ratio), 49, 50  
  
 Facticity, 162–163  
 Fifteen (15) narrative beats, 132,  
     141–142, 148–150  
 Financial data, 57  
 Financial firm performance, 48–50  
 Finitude, 125  
 “Flat world perspective”, 267  
 Food, 142–149  
     Hive of, 142–144  
     narrative script, 148–149  
     production, 142  
     Uganda’s food tropes, 144–148  
 Fore-conception, 165  
 Fore-grasping, 165  
 Fore-structuring, 163–164  
     fore-structured interpretation, 173  
 Foreign labor, 267  
 Formative occasion, 106, 114, 116  
 Fractal Action Research Method  
     (FARM), 120–121  
 Fractal change management (FCM), 105  
     tools, 119–123  
 Fractal Manager’s Toolkit, 120  
 Fractals, 109–110  
     fractal-based ontological systems,
