  sector, 154–157
Air pollution, 27
AirBnB, 311
Airplane electronics, 144
Aisin, 9
Albert (head of design at Yahoo), 228
Alexandra (founder and owner of Powerful Minds), 228
Alibaba Alipay payment system, 372
Alternative fuels, autonomous vehicles enabling use of, 305
Altruistic mode (a-drive mode), 252
Amazon, 138, 141, 311
American Trucking Association, 68
Android operating system, 327
Anthropomorphise products, 290
Appel Logistics transports, 167
Apple, 9, 138, 327
  CarPlay, 285
Apple Mac OS, 247
Apple-type model, 323
Application
  layer, 119
  software, 118
Artificial intelligence, 115, 255, 291, 332–333
Artificial neuronal networks, 114–115
Asia projects, 371–374
Assembly Row, 386
Assessment of Safety Standards for Automotive Electronic Control Systems, 144
Assistance systems, 71–77
Audi, 5, 130, 134, 137, 179, 211, 301, 318, 322, 398
  Driverless Race Car, 5
  piloted driving, 286
  piloted-parking technology, 386–387
Audi A7, 44, 198, 282

Audi A8 series-car, 79, 180
Audi AI traffic jam pilot, 79
Audi Fit Driver service, 318–319
Audi piloted driving lab, 227, 229
Audi Q7, 74
  assistance systems in, 75
Audi RS7, 43, 44, 79
  autonomous racing car, 179
  driverless, 227
Audi TTS, 43
Audi Urban Future Initiative, 384–386, 406
Augmented reality, 279
  vision and example, 279–280
Authorities and cities, 171–173
Auto ISAC, 146
Autolib, 317, 344
Autoliv, 285
Automakers' bug-bounty programs, 146
Automated car, 233, 246, 264, 289, 384
Automated driving
  division of labour between driver and driving system, 48
  examples, 51–53
  image, 177
  levels of, 47–51
