

INDEX

- Academic skills, 33
- Arguing *vs.* discussing, 88–93
- Awareness
 - of human being, 45
 - of person as changing entity, 82, 90, 113, 118
- Behaviour
 - challenging, 45
 - goal seeking, 44, 85–86
 - goal setting, 44, 85–86
 - goal-achieving, 44, 85–86
 - regulation and control of, 43–44, 107
 - sharing, 44, 89, 111
- Bloom's taxonomy, 66, 73, 82, 86, 90, 96, 108, 114, 118
- Bodily/kinesthetic intelligence, 25
- Children's experiences, 9
- Cognitive assessment, 49
- Cognitive development, 35–36, 38
- Cognitive functions, 17–20
- Competence, feeling of, 43, 82, 85, 95, 107, 113
- Cultural psychology, 13–14
- Culture, learning and thinking development, 53–58
- Dewey's mediation approach, 6–10
- Differentiation, 48–50
 - among learners, 63
 - among students, 49
- Discussing, arguing *vs.*, 88–93
- Down Syndrome (DS), 55
- Educators, 47–48, 52–53, 66–67, 99
- Extrinsic motivation, 72
- Feuerstein's cognitive functions, 82, 86, 90–91, 108, 113, 118
- Feuerstein's criteria of mediation, 81, 84, 89, 94, 95, 107, 113, 117

- Feuerstein's mediation
 - approach, 16–17, 55
 - elaboration phase, 18–19
 - input phase, 17–18
 - output phase, 19–22
- Feuerstein's universal parameters of mediation, 42–43
- Freedom to learn, 9–10
- Gardner's mediation
 - approach, 22–26, 39
- Goal seeking behaviour, 44, 85–86
- Goal setting behaviour, 44, 85–86
- Goal-achieving behaviour, 44, 85–86
- Human mediation, 37, 40
- Human thinking
 - analysis, 23
- Individual mediation, 38–39
- Individuation, 44, 90, 107
- Information, 35, 48
- Instrumental Enrichment (IE), 21
- Integrated learning
 - process, 99
- Integrated model for planning thinking
 - development, 68–69
 - data collection, 69–72
 - reflective assessment, 76–77
 - scheme of planning
 - mediated interaction, 73–76
 - setting goals for mediated interaction, 72–73
- Integrative mediation model, 66
- Intelligence, 23
 - bodily/kinesthetic, 25
 - interpersonal, 25
 - intrapersonal, 25–26
 - linguistic/verbal, 24
 - logical/mathematical, 24
 - multiple, 23
 - musical/rhythmic, 24
 - spatial/visual, 24–25
- Intentionality, 42, 81, 84, 89, 94, 107, 113, 117
- Intercultural teacher-training programme, 38
- Intrapersonal intelligence, 25–26
- Intrinsic motivation, 72
- Learning Potential Assessment Device (LPAD), 21
- Linguistic/verbal
 - intelligence, 24
- Logical/mathematical
 - intelligence, 24
- Meaning, mediation of, 42–43, 81, 85, 89–90, 95, 107, 113, 118

- Mediated interaction,
 - 72, 81, 89
 - reflective assessment,
 - 84, 88, 93, 98, 105, 111, 116, 120
 - scheme of planning,
 - 73–76, 82–83, 87–88, 91–93, 96–98, 103–105, 109–111, 114–116, 119
 - setting goals for, 72–73, 81–82, 84, 89, 94–96, 101–103, 107–108, 113–114, 117–118
- Mediated Learning Experience (MLE),
 - 2, 16, 41, 112
 - situational parameters
 - reinforcing and elaborating, 43–46
- Mediatees, 70–71, 81, 84, 89, 94, 107, 110, 113, 117, 119
- Mediation, 1–3, 21–22, 31, 62, 71, 81, 84, 89, 94, 99, 107, 113, 117
 - experiences, 17
 - Feuerstein’s universal parameters, 42–43
 - intelligence and human, 14
 - as key for thinking development, 34–36
 - necessary foundations for practicing, 37–46
 - parameters of, 75
 - situational parameters
 - reinforcing and elaborating MLE, 43–46
 - sociocultural types, 14
 - structure, 15
 - teaching and learning, 32–34
- Mediation and learning processes
 - in classroom, 98–120
 - in early childhood, 77–98
- Modifiability, 45
- Motivation, learning and thinking development, 50–53
- Musical/rhythmic intelligence, 24
- Neuropedagogy, 3, 5–6, 26–30, 65
- Optimistic alternatives, search for, 45
- Pedagogy, 58–63, 67
- Piaget’s mediation
 - approach, 11–13
- Psychological differentiation, 44, 90, 107
- Quality of experience, 8–9
- Reciprocity, 42, 81, 84, 89, 94, 107, 113, 117

- Reflective assessment,
 76–77, 84, 88, 93,
 98, 105
- S → O → R model, 40
- Schools
 development of, 48
 environment, 56
 getting ready for, 93–98
 organisation, 8
 role of, 47
- Science education, 117
- Social interactions, 55–56,
 80, 89
 influence of, 12–13
- Socrates, 34
- Spatial/visual intelligence,
 24–25
- Structural Cognitive
 Modifiability
 (SCM), 16, 22
- Taxonomy, 58–63
- Teachers, 6–7, 62, 71, 101
 complexity, 48
 mediation, 35
 as models of society, 8
- Teaching strategies, 58–63
- Teaching-learning, 32–34
 interactions, 69
- Thinking development,
 1, 5
 Dewey's approach, 6–10
- Feuerstein's approach,
 16–22
- Gardner's approach,
 22–26
- integrated model for
 planning, 68–77
 through mediation, 78
- mediation and learning
 processes in
 classroom, 98–120
- mediation and
 learning processes
 in early childhood,
 77–98
- mediation as key for,
 34–36
- neuropedagogy
 approach, 26–30
- Piaget's approach,
 11–13
- Vygotsky's approach,
 13–16
- Transcendence, 83
 mediation for, 42, 81,
 85, 89, 94–95, 107,
 113, 117–118
- Vygotsky's approach,
 13–16
- Zone of Proximal
 Development
 (ZPD), 2, 15–16, 38
