INDEX

Note: Page numbers followed by "*n*" indicate notes.

6C Framework, 9, 27, 38, 40, 46, 97

Accountability, 74
Administrative culture, 75
Agenda for Sustainable Development (2030), 65
'Amai' project, 48

Behavioural barriers, 71
Biased participation, 22
Boosting mechanism, 7
Brainwriting, 47
'Broadcast Yourself' (YouTube's motto), 16

Challenges of co-creation, 65
  inclusive practices, 68–70
  organisational context in PSOs, 65–68
  stakeholder engagement, 70–72
Changeability of value, 85
Cities, 2–3
Citizen centred, collaborative, collective capital, creative, context, culture framework (6C framework), 38–41
Citizens, 11, 19, 25
Citizenship, 5, 11
City governance, 14
Co-creation, 2, 4, 13 (*see also* Value co-creation)
  diffusion, 54–55
  exploration, 47–50
  flowchart, 44–55
  ideation, 50–52
  implementation, 53–54
  inputs and throughputs, 24
  mindset, 26
  model, 15
  musings, 20–26
  in perspective, 14–17
  for public administrations, 3
  in public sector, 57
Co-Creation Readiness Compass, 75, 83, 86–94
Co-design, 16
Co-production, 16
Competing Values Framework (CVF), 77–78
Customer satisfaction, 17

Data fetishization, 3
Data requirements, 52
Datafication, 3, 5
Datafied cities, 5
Democratic inclusion, 68
Democratisation, co-creation for, 60–62
Design Kit of IDEO. org, 44
Design research, 31
Design Thinking, 35–36
Design Thinking for Public Excellence, 45
Design Thinking Foundation, 45
Design-Driven Innovation, 35–38
Diffusion phase for co-creation, 54–55
Digital technologies, 57–58
DigitalGov's User Experience Program, 44

Double Diamond model, 37, 44
Duncker Diagram, 47

ECIM project, 54
Ecosystems, 2
Equity, 74
Exploration, Experimentation, Evaluation (three E's), 35
Exploration phase for co-creation, 47
  problem validation, 50
  scoping and problematisation, 47–48
  stakeholder mapping, 48–49
'Explore Porto' application, 68

Fairness, 74
FormIT methodology, 45
Frame your Design Challenge, 47
Functional requirements, 52

General Data Protection Regulation (GDPR), 7, 91

'Hackable City' project, 69–70

Idea assessment and selection, 51–52
Idea generation, 50–51
Ideation phase for co-creation, 50
  idea assessment and selection, 51–52
  idea generation, 50–51
imec. livinglabs, 49
Impartiality, 74
Implementation phase for co-creation, 53–54
Inclusive practices, 68–70
Information and communication technologies (ICTs), 2–3, 5, 66
Innovation process, 16, 58
Instagram, 13
Issy-les-Moulineaux city, 59–60

Lead users method, 50
Leadership, 87
Learning in co-creation, 24
Legitimacy, 90
Leipzig Leadership Model, 87
Living Labs, 34–35
  methodologies, 45
Loyalty, 74
'Luchtpijp' initiative, 64–65

Marketing, 31
Mis-communication, 28
Multi-stakeholder
  orchestration, 88
  participation, 35
Multi-stakeholderism, 88
Municipality of Porto, 67

Needs assessments, 50
New Public Governance, 76
New Public Management reforms, 74–76
Non-functional requirements, 52

Open innovation approach, 37
Openness, 40–41
Opportunities of co-creation, 58
  democratisation, 60–62
  public sector innovation, 58–60
  resilient communities, 63–65
Organisational culture, 65, 73
  in public sector, 75–80
Organisational Culture Assessment Instrument (OCAI), 79
Organisations, 16
Organisations in transition, 73
  Co-Creation Readiness Compass, 86–94
  public value co-creation as assemblage, 83–86
  public value turn, 80–83
  strategic management and organisational culture in public sector, 75–80

Participation, 3, 5
processes of, 13
society, 6, 12
Participatory activities, 12
Participatory democracy, 61
Participatory design, 16
Participatory governance processes, 20
Participatory trajectory, 13
Participatory turn, 12
Passivity to self-governance, 20
Peak co-creation, 20
Performance requirements, 52
Platform economies, 3
PoliVisu project, 61–62
Porto Digital Association, 67–68
Private organisations, 2
Problem Canvas, 47
Problem validation, 50
Problematisation, 47–48
Public administration, 90–91
Public managers, 81
Public organisations, 2
Public sector innovation, co-creation for, 58–60
Public sector organisations, 28, 73
benefit, 32
value co-creation in, 17–20
Public sector reforms, 11
Public sector transformation, 21
Public service organisations (PSOs), 14, 19, 26, 43
co-creation and organisational context in, 65–68
size and complexity, 21
Public value
co-creation as assemblage, 83–86
theory, 82–83
turn, 80–83
Public Value Scorecard (PVSC), 87
Public Value Toolkit (PVT), 87

Quadruple Helix, 34
Quasi-experimental approach, 45

Reference zones, 10*n*1
Requirements, 52
Resilience, 64
Resilient communities, co-creation for, 63–65
Rights, 6

SavingFood project, 52
Science of muddling through, 76
Scoping, 47–48
Sequencing, 33
Service Design, 30–33
Service Design toolkit, 44
Service Manual, 44
Service-dominant logic (SDL), 85
Smart city, 4–8
Social capital, 63
Spatial justice, 21
Stakeholder (*see also* Multi-stakeholder)
engagement, 70–72
mapping, 48–49
Strategic management in public sector, 75–80
Strategy implementation, 76–77
Strategy Map, The, 47

Temporary roadblocks for safer school environment, 62
Toolkits, 16–17
Transformation, 20–21
Transformative co-creation, 22
Transparency, 40–41
Trial and error processes, 59
Triple Helix, 34

U4IoT project, 45

Value co-creation, 15, 43
challenges with design principles, 28
co-creation flowchart, 44–55
Design-Driven Innovation, 35–38

Living Labs, 34–35
in public sector organisations, 17–20
Service Design, 30–33
Value networks, 73
Value orientation, 40–41
Value Proposition Canvas, 50
Vision for public value co-creation, 71–72

Web 2.0, 12
World Café method, 51
