

INDEX

- Affect proposition, 68
- Algedonic signal, 22
- Ambidextrous organisation, 6–9
- Ambidextrous structure, 7–8
- Anchor effect, 66–67, 70–71
- Anchoring, 65–67
- Anti-change alliance, 23, 25–26
- Architectural practices, 105
- Aspect-seeing, 131
- Asplund's motivation theory, 123
- Authority, 27
- Automatic thoughts, 126
- Availability, 67–68, 71
 - cascades, 67
 - proposition, 67–68
- Beck's model for cognitive
 - behavioural therapy, 126
- Behavioural experiments, 126
- Bias, 63–64
- Boudon–Coleman diagram, 123, 133
- Bureaucratic forces, 23
- Certainty effect, 60–62, 69
- Change, 117
- Co-creation, 116–117
- Cognitive dissonance, 36
- Cognitive model, 126
- Cohesive energy, 124
- Colleagues, choice of, 27
- Collective blindness, 124
- Communication (*see also* Knowledge)
 - of global change processes, 105
 - global competence clusters, 115–116
 - infostructure, 110–113
 - modular flexibility, 113–115
 - officer, 5
- Compensation-feedback, 43
- Competence, 27 (*see also* Global competence)
 - analysis, 93–94
 - development, 117
 - in knowledge society, 109
- Competition, 93
- Conant–Ashby theorem, 16
- Concepts, 131
- Conceptual generalisation, 124
- Connectance, 116
- Constructs, 124
- Consultancies, 105
- Contextual level, 35–36
- Continuous development of skills, 91–94
- Continuous principle, 40
- Control cycle, 45–47
- Control signal, 22
- Control system, 41
 - in strategic change leadership, 42–45
- Cooperation, 93, 117
- Creative businesses, 9
- Creative chaos, 93
- Creative collaboration, 93
- Creative destruction, 93
- Creative processes, 108, 110
- Crisis understanding, 69
- Critical success factors (CSFs), 38, 50–52
- Day-to-day management, 47

- Decision-making
 - element, 45, 47
 - system, 21–22
 - under uncertainty, 60–63, 69
- Delphi method, 18
- Deviations, 41
- Dynamic hypothesis, 128

- Early warning system, 18–19
- Emergents, 124, 131
- Empirical generalisation, 124
- Empirical studies, 38, 79
- Employee experiments, 125–127
- Engineering firms, 105
- Entrepreneurial spirit, 124–125
- Erratic behaviour, 70
- Exceptional events, 134
- Expectation management, 69
- Explicit knowledge, 88

- Feedback, 40, 43, 89–90
- Feedforward, 38, 89
- Financial crisis of 2007–2008, 67
- Forward-looking control, 44
- Framing, 63–65, 69–70
- Front line, 108, 110
- Funfair management, 4, 43

- Global clusters of competence, 110
- Global competence
 - clusters, 115–116
 - networks, 91–93
- Globalisation, 107, 109
- Goals, 37–38, 44, 49
 - prioritising, 50
- Good life, 80
- Great Depression, 67

- Heuristic assessments, 65–68, 70–71
- Hidden knowledge, 88
- Hierarchical control, 43
- High-performance work system (HPWS), 78
- Human resources (HR), 19–21
- Hypotheses, 131

- Implicit knowledge, 88
- Indicators, 48–50
- Individual leaders, 36
- Industrial clusters, 109
- Information
 - analysis, 88
 - systems, 4–5
- Infostructure, 108, 110–113
- Innovation, 125
 - orientation, 85–86
- Innovative clusters, 93
- Interactive causal processes, 130
- Interactive planning, 18
- Interconnectedness, 116
- International leadership, 92
- Interruption-control, 44–45
- Isolation effect, 62, 69

- James G. Miller's Living Systems Theory (1978), 4

- Kaizen*, 87
- Knowledge, 125
 - economy, 107, 109
 - enterprises, 107
 - recognition for knowledge-sharing, 86–88
 - society, 106, 109
- Knowledge workers, 77, 106–108
 - assumptions concerning, 79–81
 - continuous development of skills, 91–94
 - historical context, 79–81
 - importance, 78
 - innovation orientation, 85–86
 - practical leadership tools, 82–83
 - primary task, 81–82
 - productivity, 110
 - productivity of, 81
 - recognition for knowledge-sharing, 86–88
 - result orientation, 83–85
 - self-management and self-organisation, 88–91

- Knowledge-based organisation, 105
 - function of leader in, 106
- Known future, 18
- Lateral control, 43
- Leaders, 4
 - in knowledge-based organisation, 106
- LEAN methodology, 37
- Legitimacy, 27
- Lego blocks, 96
- Lego brick method, 95–96
- Lego principle, 113
- Locomotive effect, 125
- Log books, 5
- Loss aversion, 62–63, 65
- Management systems in strategic change leadership, 38–42
- Material resources and technology, 129
- Methodological collectivism, 131
- Methodological individualism, 131
- Middle manager function, 16
- Mini-theory, 78
- Mobility, 92
- Modern hospitals, 105
- Modular flexibility, 110, 113–115
- Modular understanding, 95
- Modularisation, 96
 - of work processes, 109
- Negative feedback, 40
- Non-value-added activities (NVA activities), 82
- North's action theory, 123, 128
- Norwegian Labour and Welfare Organisation (NAV), 36
- Optimists, 63
- Organisations, 9, 39, 42
- Participation principle, 40
- Pessimists, 63
- Post-control, 44–45
- Power, 129
- Practical choices, 62
- Presence, 27
- Primary task, 81–82
- Process-oriented forces, 23
- Pro-change alliance, 23–24
- Productivity, 37
 - of knowledge workers, 81
- Prospect theory, 59–63
 - framing aspect, 64
 - principal assumptions, 65
- Psychological assessments, 62
- Psychological security, 69
- Punctuation, 128
- Radio, 5
- Re-framing, 64
- Realism, 128
- Recognition for knowledge-sharing, 86–88
- Reference point, 61
- Reflection effect, 61–62, 69
- Resistance to changes within organisations, 59
 - decision-making under uncertainty, 60–63
 - framing, 63–65
 - rules of thumb, 65–68
 - specific measures, 69–71
- Resources, 26–27, 49
- Result orientation, 83–85
- Risk, 59
 - aversion, 69
- Rules of thumb, 65–68
- Russel Ackoff's thinking about interactive planning and circular organisation, 4
- Scenario techniques, 18
- Self-control, 43
- Self-management, 88–91
- Self-organisation, 88–91
- Skills analysis, 93–94
- Slow fields of history, 125

- Social earthquakes, 108
- Social mechanism, 128–129
- Social sciences, 134
- Social systems, 108, 129–130
- Social worker, 36
- Stable core, 4
- Stafford Beer's theory of viable systems, 4, 9
 - coordinating system, 13–16
 - decision-making system, 21–22
 - eye to future, 16–21
 - here-and-now leadership, 16
 - operative level, 10–13
 - quantitative and qualitative measures of process and output, 12–13
- Standards, 48
- Starvation, 131
- Strategic change leadership, 4, 130
 - ambidextrous organisation, 7–9
 - control systems in, 42–45
 - management systems in, 38–42
 - in Norwegian company, 23–27
 - principles, 5–6
 - Stafford Beer's theory of viable systems, 9–22
 - subsystems, 6
 - theory, 3
- Strategic responsibility, 88
- Strength analysis, 90–91
- Structurally linked competence networks, 115
- Structure, 130
- Symbol, 131
- Symphony orchestras, 105
- System of propositions, 78
- Systemic approach, 40
- Systemic research strategy, 133
- Systemic thinking, 130–131, 133
- Tacit knowledge, 88
- Targets, 40–41
 - effectiveness, 12–13
- Technological innovations, 123
- Telegraphist, 5
- Theory, 131, 134
- Trivial alliances, 23
- Type I change, 133
- Type II change, 133–134
- Type III change, 134
- Type IV change, 134
- Uncertainty
 - decision-making under, 60–63, 69
- Universities, 105
- Unknown future, 18
- Unsupported teams, 8
- Virtual global competence clusters, 92
- Walt Disney's method, 96
