This series is dedicated to communicating innovative and multi-disciplinary new research that advances theory and practice in *Entrepreneurial Behaviour*. The series is focused on expanding the scope of *Entrepreneurial Behaviour* theory and analysis and enriching practice by encouraging multi-theoretical, multi-cultural and multi-disciplinary approaches.

Key issues explored in *Entrepreneurial Behaviour* include cognition, decision-making, organisational behaviours, and identifying, creating, and exploiting opportunities concerning new products, services, processes, innovations or ventures from entrepreneurial perspective.

The primary focus will be on the study of entrepreneurs, small and medium enterprises, and family businesses, with a secondary focus on entrepreneurial and innovative behaviours in other forms of organisations, such as non-profits corporations and public administration.
