## ABOUT THE CONTRIBUTORS

**Erlan K. Abil**, PhD in Economics, is Rector of the Academy of Public Administration under the President of the Republic of Kazakhstan. His scientific interests include macroeconomics, public administration and economic growth. He is the Editor-in-Chief of the journal *Economy & Business* (ISSN 1314-7242) (<https://www.sciencebg.net/en/conferences/economy-and-business/>). He has published more than 50 works in Russian and foreign peer-reviewed scientific journals and books.

**Raju Mohammad Kamrul Alam**, PhD in Economics, is Senior Lecturer at the faculty of National Economics at the Peoples' Friendship University of Russia. His area of interest and teaching is green economy and sustainable development.

The world is now confronted with incremental global warming. The global average temperature is accelerating rapidly in the earth's neon surface areas. If such a condition continues, then the global average temperature will increase by 2.4–4.6 degrees centigrade by 2050, which will affect the hydrology and biology of the earth, including the economy, ecosystem and substances. Some of the adverse impacts of global warming including frequent natural disasters, drought, heavy rainfall, bushfire, etc. are already prevalent and becoming more devastating day by day. Green economy and sustainable economic development is the potential way to solve the problem. He has more than 30 publications written on economics and contemporary global issues published in national and international journals.

**Ahmad S. Al Humssi** is a candidate of Economic Sciences (PhD in Economics) and an Associate Professor of the Faculty of Economics of the RUDN University. His research interests include economic analysis, finance, accounting, statistics, international economics, international business analysis and other studies on challenges of economic growth in Middle Eastern and North African countries. He has more than 45 publications written on economics and contemporary global issues published in national and international journals.

**Dr. Óscar Álvarez-Gila** is a Professor of History of the Americas at the University of the Basque Country. He has also been Visiting Professor at the Centre of European Studies, University of Oxford (2008–2009); W. Douglass Distinguished Visiting Scholar in the University of Nevada-Reno, USA (2010–2011); Elena Díaz-Verson Amos Eminent Scholar in Latin American Studies in the Columbus State University, Georgia, USA (2013–2014), Magnus Mörner Memorial Professor in the University of Stockholm (2016–2017) and Jon Bilbao Chair in the

University of Nevada-Reno, USA (2019–2020). His research deals with the study of international migrations during the nineteenth–twentieth centuries from Europe overseas. Among other elements, he has focused on the links between religion and migration, the creation of associations among immigrants, and the links between climate change and migration or genetics and history.

**Inna V. Andronova**, with a doctorate in Economics, is Professor and Head of the Department of International Economic Relations, faculty of Economics, RUDN. She has been an Invited Professor in The Institute of Public Administration and Civil Service of the Russian Presidential Academy of National Economy and Public Administration. She is the Head of the Scientific School of the Department of International Economic Relations ‘Foreign Economic Security of countries in the conditions of increasing interdependence of national economies’. Her research interests include: economic security of countries and regions, sustainable development, economic integration. She is author of more than 150 scientific papers.

**Aibol A. Argyngazinov**, MSc (Econ.), is an Applicant at Peoples Friendship University of Russia. He studied at the graduate school of St. Petersburg State University and has work experience in the Ministry of National Economy of Kazakhstan, the Institute for Economic Research. He has authored over 40 scientific papers on economic problems.

**Ravil R. Asmyatullin** is Manager of the educational program ‘World Economy’ and Assistant Professor at the Institute of World Economy and Business, RUDN. Asmyatullin specializes in the global education market, and is author of more than 30 publications, including *Transformation of the global education market in the age of digitalization*.

**Saadat M. Assanseitova** is an Economist and Director of the Regional Integration Department of the AIFC. Previously she served as a Deputy Director of Integration Development Department of Eurasian Economic Commission and has 10 years of experience in public service including leadership positions. Her scientific interests include regional economic integration, globalization and economic growth, emerging markets, trade and economic relations, free trade agreements, industrial cooperation, effects of economic integration. She has participated in Russian and international scientific and practical conferences and published few scientific articles.

**Irina N. Belova**, PhD in Economics, is Professor of the Department of International Economic Relations, Faculty of Economics, Peoples’ Friendship University of Russia (RUDN University), Moscow, Russia. Her research interests include world economy, international economic relations, international trade, world markets of goods and services.
