

INDEX

- Adenoma, 211
- Aid to Families with Dependent Children (AFDC), 114, 120, 126, 130, 138*n*6
- American Recovery and Reinvestment Act (ARRA) (2009), 252, 256
- American Time Use Survey (ATUS), 81, 247, 249, 253–255, 259, 266–272, 273*n*3
- Bayes' theorem, 214
- Behavioral Risk Factor Surveillance System (BRFSS), 247, 249, 253, 254, 259, 261, 262, 265, 266, 268–272, 273*n*2
- Behavioral welfare economics, 144–145
- FDA tobacco regulations and, 145–158
- Benchmark consumption, 56, 79, 80
- Birth spacing, 3–21, 24–29
- Brazil, 95
- Calibration, 35–37, 47, 50–54, 56, 59–62, 64–67, 68*m*14–15, 69*n*16, 79–83, 166
- Canada, 114, 115, 173*n*4
- Cancer, 190, 208, 210–211, 215–216, 233
- Cancer Registry of Norway, 216
- Causality, 35–37, 41, 55, 64–66, 68*n*15, 70*n*25
- Child health, 38, 86, 88–91, 94, 99, 102, 103, 113
- Child immunization, 86–87, 92, 94, 98, 100–104
- Chronic obstructive pulmonary disease (COPD), 217, 233
- Cigarette consumption, 145, 147–152, 154, 156–164, 166–167, 171, 172
- tax, 188, 195, 202*n*5
- see also* Food and Drug Administration (FDA) tobacco regulations
- Cigarette demand information, 154–156
- Cognitive and non-cognitive skills, 39
- Colonoscopy, 211
- Colorado Department of Education, 11
- Colorado Department of Public Health and the Environment (CDPHE), 9
- Colorectal cancer (CRC), 208, 209, 210, 214–215, 232, 233
- Commitment device, 164, 168, 169–172
- Confluence theorem, 20–21
- Constant-elasticity-of-substitution (CES), 46, 47
- Consumer surplus offset approach, 156–158

- Cost-benefit analysis, 144, 145, 153, 154–158, 164, 165, 169, 172
- Current Population Survey (CPS), 253, 255
- Decision utility, 148
- Demand for education, 44
- Demand for health, 45, 67*n*3, 211, 248
- Developing world, 88–89
- Difference-in-difference (DD) approach, 114, 127, 130, 133, 139*n*7, 247, 255–259, 261, 262, 264, 266, 270
- Earned Income Tax Credit, 112
- Econometric strategy, 10, 87, 94–99, 148, 165, 175*n*17
- Education,, 93–98, 113–114, 127, 166–167, 247, 249, 253, 255–259, 262, 264, 268, 270
and birth spacing, 4–21
and health, 34–83, 86, 208–234
heterogeneity, 184–202
maternal, 86–88, 97, 100–104
- Educational attainment, 4, 5, 35, 39, 86, 91, 127, 184, 187, 195, 196, 198, 268
- Educational heterogeneity, 184–202
PSID, 187–188
- Education effect, on health
behavior, 208–210
human capital and health
behavior and, 211–216
- Education subsidy, 55, 58, 60, 62, 63
- Ethiopia, 88
- Fecal occult blood testing (FOBT), 208, 211
- Federal Bureau of Investigation (FBI), United States, 114, 119, 127, 137
- Food and Drug Administration (FDA) tobacco regulations, 144–173
- F*-test, 226
- Gradient descent method, 82
- Grossman model, 248
- Health behavior,, 35, 37, 39, 44, 86, 87, 92, 98, 184, 186, 208–234, 246, 249, 253, 270
- Health Certificate Effect, 209, 213, 214, 215, 220–223
- Health information, 144, 184–202, 212
- Health policy, 56, 59, 61
- Health risk information
measurement, 188–190
- Health stock, 40, 44, 47–49, 52, 54, 56, 59, 61, 64, 79, 81
- Heterogeneity,, 8, 9, 127, 133, 147, 153, 156, 167, 184–202, 250
- Historical Reader's Guide to Periodical Literature, 190
- Human capital, 48, 53, 55, 60, 67*n*3, 68*n*4
birthspacing and educational
outcomes and, 4–6, 20
health behavior and, 211–216
health certificate effect and, 220–223
maternal schooling and, 86
- ICD-10 codes, 218, 233
- Immunization, *see Child immunization*

- Income effect, 36, 43–45, 59–61, 66
- Income tax reduction, 35–36, 55, 58, 60–63, 66, 67
- India Human Development Survey (IHDS), 87, 92
- India, 86–92, 94–97, 99, 102–104
- Individual investments in education and health, 34–64
- Information flow and information stock, 190–195
- Insufficient reason principle, 158–159
- Insurance, 39, 116, 129, 166, 246–273
- Intention-to-treat (ITT), 220–224, 226, 231
- Life extension, 62–64
- Lifetime utility, 46, 47, 160
- Linear probability model (LPM), 100, 104*n*3
- Loss function, 82
- Lump-sum transfer, 36, 55, 66–67
- Marginal utility, 6, 43, 150
- Master Settlement Agreement (1998), 188
- Maternal employment, 113, 116, 129, 134
- Maternal schooling
and child immunization in India, 86–87
and developing world, 88–89
instrumental validity, 97–99
sanitation, 89–92
- Maternal work incentives, 112–114
- Medical care subsidy, 36, 55–57, 60–64, 67
- Menarche, 87, 91–103, 104*n*2
- Miscarriage, 8, 11, 20, 27
- Murphy–Topel procedure, 50, 79
- National Center for Education Statistics, 81
- National Health and Nutrition Examination Survey (NHANES), 272
- National Health Expenditures Data, 81
- National Household Survey of Drug Abuse, 127
- National Patient Register (NPR), 209
- National Survey on Drug Use and Health, 173*n*1, 174*n*13
- Neoclassical model of consumer choice, 36
- Nepal, 91
- Nigeria, 88
- Norway, 216
- Norwegian Colorectal Cancer Prevention (NORCCAP) Trial, 208–212, 216, 226, 231, 232
- Norwegian Patient Register, 217
- Nudges, 145–146, 149, 155, 157, 160, 164, 169–173, 173*n*4, 174*n*12
regulation, 150, 152, 161
- Numerical modeling, 35, 36
- Ordinary Least Squares (OLS), 14, 19, 96, 129, 174*n*13, 223, 225, 231
- Parents' utility, 5–6
- Paternalistic regulation, 145, 146, 149, 155–156, 173*n*3
impact of, 150–154

- Period utility, 47
 Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA), United States (1996), 112, 114, 117, 119, 120
 Physical activity, 246–273
 Policy experiments, 37, 54–56
 Pregnancy loss, 7–21, 25–29
 Pregnancy Risk Assessment Monitoring System, 163
 ProQuest, 190

 Rational Demand curve, 150, 154–155, 157, 165–167
 Robustness checks, 4, 7, 19, 102, 129, 134, 184, 191, 196, 202, 257, 258, 264, 265, 266

 Sanitation, 89–92
 Schooling. *See* Education
 Screening, 208–234
