

INDEX

Note: Page numbers followed by “*n*” with numbers indicate notes.

- Abrupt termination, 206
- Absorption, 150, 152–153
- Abstract model of project network organization, 42
- Adaptive capacity, 40, 58, 60–61, 63
- Additive process, 190
- Administrative bonds, 20
- Agency, 46
- Airbnb, 31, 272, 274, 281
- Allocation, 253–254
- Alpha relationship network, 78
 - changing requirements as GenMan developing generator for alpha, 79–81
- Alpha–GenMan interpersonal network, 81
- Ambidexterity, 192
- Apprehension, 23, 32ⁿ⁴
- Apprehension–based commitments, 20, 23–25
- Architectural firm, 130, 134
- Arm’s length governance approach
 - initiation, 146–147
 - shifting from Arm’s length to embedded governance approach, 147–149
- Ashitakaigi*, 171
- Assets, 102
- Attract, 252
 - allocation, 253–254
 - incentive type, 252–253
 - IP ownership, 254–255
- Autonomous interdependence, 192
- Autonomy, 191–193, 195
 - autonomy-respecting assistance, 202
 - collaborative process of supporting, 201–205
 - helping doer pursuing own ends, 204–205
 - helping doer take responsibility for solution, 205
 - helping doer to implement, test, and refine doer’s solution, 205
 - seeing problem through doer’s eyes, 204
 - starting from doer’s problem and incrementally building, 202–203
- Backstage interpersonal dynamics, 120
- Bandcamp, 302
- “Basis of action”, 168
- Beach Productions (BP), 49–51
- Behavioral uncertainty, 146
- Big data technologies, 92, 98–99, 107
 - technological embeddedness and, 93–95
- Bilateral design, 141
- Black Rose*, 51, 54
- Bonds (*see also* Relational bonds), 20
- Bravo relationship network, 78
 - certification and pricing as GenMan upgrading generator, 81–84
- “Brexit”, 187
- Bricolage, 123–124
- Broadcast(ing), 248
 - channel, 248–249
 - crowd size, 249–250
 - via private or public call, 250–251
- Bundle of resources, 216
- Bundles of bundles of practices, 231–232
- Bundles of practices, 216–217, 229–231
- Bundling moves, 125
- Burning platform, 190
- Capability paradox, 73
- Capacity, 44
- Century Club, 309
- Channel, 248–249
- Character traits, 29

- Chesbrough's concept of "open innovation", 221
- Chief Technology Officer (CTO), 151
- Chinese walls, 196
- Clean break, 198, 205–207
- Club activities, 170
- Co-opetition, 72–73, 192
- Code of conduct, 170
- Cognitive distancing process, 190
- Collaboration, 272
 - bringing human factors knowledge to drilling engineering community, 131–132
 - empirical illustrations, 126
 - external collaboration to mainstream sustainability issues, 132
 - individual actors, 132–133
 - initiating network for regional healthcare, 129–130
- ICO, 120–121
 - new governance models for architectural services, 130–131
 - path creation for ICO through issue selling, 122–126
 - perspective of actors, 134–135
 - product development with external expertise, 126–128
 - selling radically new approaches for new product development, 128–129
- Collaborative innovation online, 294
 - case setting, 299
 - communities, 296–298
 - data analysis, 300, 302
 - data collection, 300–301
 - FAWM, 295–296
 - interdependencies between content-, skill-and community-in-the-making, 302–310
 - online ethnography, 299–300
- Collaborative separation, 6
- Collaborative uncoupling
 - accessing resources, 194
 - associating dependence with shame and independence with pride, 199–200
 - benefits of collaborative separation, 193–196
 - benefitting ethically, 195–196
 - collaborative process of supporting autonomy, 201–205
 - comparing organizational restructuring challenges, 189
 - increasing performance, 194
 - organizational separation, 189–193
 - reasons for lack of collaboration between separating entities, 196–201
 - relations between organizational autonomy, performance, and interdependence, 191–193
- Collective creativity, 298
- Commitments, 14, 20
 - apprehension-based, 20, 23–25
 - associated with relational bonds, 29
 - forbearance-based, 3, 20, 22–23
 - problem, 19
 - trust-based, 3, 15, 19–22
- Community-in-the-making, 296, 303
 - interferences between, 305–309
 - mutual support, 303–305
- Competence, 193
- Complex adaptive systems, 43
- Conceptual vocabulary, 282
- Connecting practices, 106
- Conscious uncoupling, 199
- Contemporary manufacturing, 71–74
- Content-in-the-making, 296, 302
 - interferences between, 305–309
 - mutual support, 303–305
- Content-producing communities, 297
- Contexts, 25–27
- Contextual embedding, 48
- Contextualization, 47
- Contractual bonds, 18–25
- Cooperative interorganizational relationships (CIORs), 14–15
 - contexts, 25–27
 - contractual and relational bonds, 18–25
 - discussion and implications, 30–32
 - process model, 16–18
 - process theory, 15–16
 - relational bonds, 15–16
 - repairing breaches of relational bonds, 27–30
 - societal contexts, 15–16
- Coordination technology, 283

- Corporate identity, 176
- Corporate venturing capital literature, 140
- Creative content production, 295
- Creative problem-solving study, 298
- Crowd contributors, 277–278
 - vs. organizations, 254–255
- Crowd filtering, 257
 - trade-offs, 257–258
- Crowd size, 249
 - trade-offs, 249–250
- Crowd-based organizations, 274, 276–279
 - facilitators in, 284
 - processes of organization design associated with, 280–282
- Crowd-focused IOCs, 273
- Crowd-open organizations, 274
 - facilitators in, 284
 - processes of organization design associated with, 280
- Crowdsourcing, 240
 - applying framework for making decisions to, 242–243
 - attract, 252–255
