INDEX

arbitrage, 51, 112, 139, 162, 164, 188, 196, 231, 282–283, 291–293, 305, 309–310, 315–316, 319, 321, 342
arbitrage-free, 310, 315, 342
asset correlation, 113
asymmetry, 18, 197, 232–233, 259–261, 263, 265–267, 269, 271, 273, 277, 387
autoregressive conditional heteroskedasticity (ARCH), 57, 266–267, 382

bailout, 71, 80, 88
balance sheet, 6, 36, 72, 76, 407, 414–415, 425
Bank for International Settlements (BIS), 4–7, 13, 50–51
bankruptcy, 98, 133, 138, 354–357, 359, 363, 375–376
barrier option, 351
Basel, 74, 79–80, 87, 294
Basis risk, 375–376
binomial tree, 10, 123, 127–130, 133–134, 136–137, 139–142, 145, 147–148, 151
Black-Scholes model, 130, 132, 135, 137–138, 141, 144, 146, 150, 176, 352, 375
Brownian motion, 123–124, 171, 222, 231–232, 284, 310, 316, 323, 326, 332, 338–340, 343, 356, 372
business cycle, 13, 379–383, 385–387, 389, 391–392, 395–396

calibration, 131, 244, 308, 324–325, 333, 371, 373
capital market, 9, 71–73, 76, 91, 185, 187
capital structure, 20, 72–73, 87–88, 353, 362–363
caplet, 321–322, 324
catastrophe event, 10, 185, 187, 189, 191, 193, 195, 197, 199, 201, 203, 205
CDS (*see* credit default swap), 13, 37–38, 90, 351–353, 364, 366, 371–373, 375, 377
CIR model (*see* Cox-Ingersoll-Ross model), 347
cointegration, 95
collateral, 89, 362
commodity(ies), 5–6, 8, 13, 35, 47–58, 60, 62–67, 95, 108, 115, 260, 262, 265, 272, 277, 400, 404, 411–412, 417, 419, 424–425
commodity derivatives, 5–6, 13, 48–51, 54–57, 63–67, 417, 424
compensation, 12, 37, 84, 165, 187, 331–332, 334–335, 340, 346, 376
conditional probability, 144, 147, 216
conditional Value at Risk, 11, 259–260

conditional volatility, 13, 379–380, 382–383, 387, 390–395
consumer price index (CPI), 305–311, 315, 319–320, 326, 380, 382–385, 387–388, 392
contingent capital security, 81
contingent claim, 336, 342, 356
conversion point, 72
convertible bond, 11–12, 281–282, 287–290, 292–295, 297
corporate bond, 354, 380
correlation, 9–10, 47–48, 51–52, 57–58, 60, 62, 93–94, 97–104, 112, 117–118, 123, 126, 132, 134, 146, 149, 164–166, 232–233, 235, 239, 241–242, 244, 254–255, 266, 343–344, 371, 405, 425
counterparty risk, 89, 421–422
Cox-Ingersoll-Ross model, 347
crash of 1987, 124, 163, 199
credit default swap, 5–6, 13, 37, 351–353
credit derivative, 7, 37, 352
credit event, 366
credit exposure, 7
credit risk, 12–13, 36, 283, 285, 351, 353, 355, 357, 359, 361, 363, 365, 367, 369, 371, 375, 381, 409
credit spread, 149, 286, 353, 380

debt crisis, 6
default intensity, 373
default probability, 365
default rate, 381
default risk, 87, 90, 149, 353, 366, 381, 389
default swap (*see* credit default swap), 5–6, 13, 37, 351–353
default time, 354, 365
delta, 132, 151, 163, 282, 286, 288–294, 296, 359
diversification, 94–95

economic stability, 3–4, 6–8, 49
economic uncertainty, 47
emerging market, 8, 47–53, 55, 57–58, 60, 62–64, 66–67
empirical pricing kernel, 155, 161, 169
exchange rate, 47–52, 54–58, 60, 62–67, 96, 105, 110, 156, 294, 306, 320, 380
expected shortfall, 265
extreme loss, 272
extreme value, 238

factor model, 151
financial crisis, 3–4, 6–7, 9, 34, 36, 38, 71–72, 74, 80, 308, 399, 404
financial distress, 74, 88, 400, 405, 407
financial institution, 7, 30, 35–37, 65–66, 71–72, 309, 362, 402
financial risk, 6, 8, 55, 401, 410, 412, 419
fixed-rate bond, 351, 354, 362
floater (*see* floating rate bond), 352
floating rate bond, 376
floorlet, 12, 305–307, 312–313, 326
forward rate, 5–6, 305–308, 313–322, 324–326
fundamental uncertainty, 47–48, 52, 66–67
futures contract, 8, 47, 50, 54–55, 58, 62–64, 66–67, 94, 97–98, 110, 112, 118, 193, 195, 261

gamma, 213, 215–216, 218–221, 223, 282, 286, 288–291, 293, 295–296, 340, 359
government funds, 72, 407

hazard rate, 364
hedge fund, 7, 37, 118, 176, 282, 291, 331–332
hedging, 5, 8, 11, 13, 48, 51, 55, 63, 66–67, 134, 151, 163, 222, 230–231, 259–278, 281–284, 289, 291–292, 306, 313, 324, 356, 399–401, 404, 407, 409–417, 419, 422–425
hedging effectiveness, 259–260, 262–273, 276–278
hedging performance, 11, 134, 230, 259, 261–263, 265, 267, 269–273, 277–278
hedging strategy, 8, 163, 231, 260, 324
Heston model, 230, 233, 238, 240–244

idiosyncratic risk, 81
illiquidity, 162
implied distribution, 129–131, 137
inflation, 8, 12–13, 47–48, 52, 64, 67, 149, 305–326, 379–380, 382–383, 385, 389, 391–392, 395
intensity, 47, 103, 165–166, 373, 401, 404, 410, 413–415, 417

jump risk, 165–166
jump-diffusion, 166, 228

kurtosis, 11, 197, 227–228, 230, 232–236, 239–240, 242–244, 246, 251–252, 255, 266, 384–385

leverage, 35, 37, 65, 126, 164, 351–353, 360, 362, 374–376, 405, 424
LIBOR market model, 325
liquidity, 9, 36, 71–72, 78, 89, 91, 129, 162, 176, 191, 195, 234, 265, 353, 409
liquidity risk, 36
lognormal distribution, 129–131, 160, 167, 192–194, 205
lower partial moments, 259–260

macroeconomic factor, 149, 381
macroeconomic instability, 52, 400
management fee, 331–332, 334–336, 340–345, 347–348
margin, 66, 163, 403, 405–406
market model, 222, 305, 307–308, 313, 317, 319–320, 325–326
market risk, 36, 294, 409
mark-to-market, 35
martingale measure, 330
Merton model, 352, 375–376
mis-pricing, 125, 164, 176, 246
model calibration, 324, 333
model performance, 3–4, 7–8, 11, 273–275
Monte Carlo, 282–283, 296–298, 306, 343

news surprises, 379–381, 383, 385, 389–390, 392–395
normal distribution, 11, 129–131, 150, 160, 167, 192–194, 205, 214, 228–229, 233, 243, 252, 254, 266, 339, 352, 368, 387

optimal stopping, 351, 372
over-the-counter (OTC), 3–5, 7, 37, 50–52, 309, 381, 413, 415, 417

payoff, 158, 187, 233, 261, 308, 310, 315, 356, 365–366, 415
performance, 3–4, 7–8, 11–12, 37, 130, 134–135, 137, 141, 149–151, 194, 227, 229–230, 234, 236–237, 244, 247–249, 254–255, 259–275, 277–278, 281–284, 286, 288, 291, 294, 298, 325, 331–332, 334, 338–341, 346, 382, 401, 403, 406–407, 424
premium, 27, 65, 90, 124, 126, 175, 187, 232, 307, 366, 381, 383, 389
pricing error, 11, 127, 133–136, 138, 140–141, 144–145, 147–148, 227, 229–230, 234, 237–238, 242, 244–251, 255
pricing kernel, 10, 155, 157–159, 161–167, 169–173, 175–176
pricing performance, 247, 288
private equity, 12, 331–337, 339–342, 346–347

rating, 35, 72, 75, 186, 201, 364–365, 370, 420, 422
recovery, 9–10, 185–186, 199, 201, 205, 353, 365–366, 374
recovery rate, 353, 365, 374
representative agent, 10, 155–156, 159, 162, 165, 167, 170–175, 187–188
risk management, 3–4, 6, 8–9, 12–13, 36–37, 51, 156, 211–212, 278, 399–402, 404–405, 407, 409, 413, 415, 417, 419, 422, 424–425
risk measure, 240, 260, 263–264, 269, 273–275, 277
risk-neutral, 165–167, 169, 173, 175, 185–189, 192, 205, 331–333, 340, 342, 349
risk premium, 65–66, 126, 175, 187, 232, 307, 376, 381, 383, 389
risk taking, 8
risk-free rate, 17, 26, 28, 173, 175, 187–188, 222, 235, 263
riskless rate, 172, 174–175, 342, 344–346
risk-neutral, 4, 8–10, 123–125, 128, 130, 134, 137, 149, 151, 160, 164–167, 169, 173, 175, 185–189, 191–193, 195, 197, 199, 201, 203, 205, 331–333, 340–342, 346–348
risk-neutral density, 10, 185–186
risk-neutral distribution, 4, 9, 125, 128, 160, 164–167, 169
risk-neutral measure, 166, 186, 205, 347–348
risk-neutral pricing, 340
risk-neutral probability, 124–125, 173, 175, 186–188, 192, 342
risk-neutral valuation, 188, 332–333, 340–342

securitization, 35, 50–51
simulation, 166, 173–174, 296–297, 332
