## EDITORS' PROFILE

Rajib Shaw is associate professor in the Graduate School of Global Environmental Studies of Kyoto University, Japan. He works closely with the local communities, NGOs, governments, and international organizations, including United Nations, especially in Asian countries. He is currently the Chair of the United Nations Asia Regional Task Force for Urban Risk Reduction. His research interests are: community-based disaster risk management, climate change adaptation, urban risk management, and disaster and environmental education.

Phong Tran is lecturer and researcher in the College of Economics, Hue University, Vietnam. He obtained his doctoral degree in environmental studies from Kyoto University, Japan and a masters degree in urban and regional planning from Hawaii University, USA. He has been conducting research on environmental management, urban climate resilience, climate change adaptation, and disaster risk reduction, in developing countries, particularly Vietnam. He is also a technical lead in the Institute for Social and Environmental Transition (ISET) in Vietnam, and undertakes the research and implementation projects related to urban climate resilience.
